Rich Mehta a professor at Acadia University who is being attacked by Marxist and Socialist forces that are trying to stifle debate and shut down free speech. As well as calling for him to be fired from his teaching position

Professor Rick Mehta has expressed he is FULLY in support of trans rights as he is for ALL human rights

He believes former residential school attendees that claim the schools did good in some cases should be heard as well, as part of the overall conversation

He believes that there are people "self Identifying" as Indigenous spokespeople that are exploiting the general public by not speaking openly regarding both sides of the above issues.

The University should be proud to have Professor Mehta on staff and students will be better educated and better people for having taken a course of his.

KEEP HIM IN THE CLASSROOM
